Ongoing Assistance

These technology education opportunities are offered year-round.

1-on-1 Tech Help (By appointment only)
Schedule an hour-long 1-on-1 session with our Tech Ed team for assistance with computer or mobile device issues. Appointments are available at the following times:

- 10am, 11am, 1:30pm and 2:30pm on Mondays, Wednesdays and Fridays

To make an appointment, contact **212-218-0477** or **teched@lenoxhill.org**.

Tech Office Hours (Walk-in)
Visit office hours with Technology Education staff Jake and Johnny to ask a quick 1-on-1 question about your computer or mobile device.
Mon 9:30-11:00am at 343 E. 70th St Dining Room w/ Johnny
Wed 9:30-11:00am at 619 Lex. Ave Living Room w/ Johnny
Fri 9:30-11:00am at 343 E. 70th St Dining Room w/ Jake
Please note the entrance for 619 Lexington Avenue is on 54th Street.

Open Computer Lab (Walk-in)
Visit our computer and tablet lab to use one of our PC laptops, Samsung tablets or to use the printer. This is the perfect session to work on your own with a volunteer available to assist.
Wednesdays and Fridays, 3:15-4:30pm
331 E. 70th Street Room 1B

Registration-Required Classes

Register 4/3 at 212-218-0477 or teched@lenoxhill.org.

Android for Beginners
(8 Weeks, 4/15-6/3)

<u>Mondays</u>, 1:00-1:45 p.m., Room 1B at 331 E. 70th

Get touchscreen savvy with essential skills to operate a mobile device with the Android operating system (e.g. Samsung, LG, Jitterbug, HTC). This course covers topics such as downloading and managing apps and basic device navigation. *Samsung tablets provided. No touchscreen skills required.* Instructor: Jake Newman

Mac Basics
(3 weeks, 5/13 - 6/3)

<u>Mondays,</u> 2:30-4:00 p.m., Room 1B at 331 E. 70th

Build foundational skills for navigating and organizing apps and files on your Macbook. *Basic computer skills required. Participants must bring their own Macbook.* Instructor: Meryl Lewis

Science Through Technology
(8 Weeks, 4/16-6/4)

<u>Tuesdays</u>, 11:00-12:00 p.m., Room 1B at 331 E. 70th

Curious about the universe around you? Want to better understand scientific breakthroughs in the headlines? In this class we will learn about the wealth of computer and app-based resources you can use to explore and learn about science both around you and in the world. *Basic computer skills required. Laptops/Tablets provided*. Instructor: Johnny Inoue

Computer Basics
(8 Weeks, 4/16 – 6/6)

<u>Tuesdays + Thursdays,</u> 1:30-3:00 p.m. Room 1B at 331 E. 70th

Learn to use the mouse and keyboard, access the internet, send emails and pursue your interests with technology. *No computer skills required. Laptops provided.* Instructor: Johnny Inoue

Beyond Basics
(8 Weeks, 4/16 – 6/6)

<u>Tuesdays + Thursdays,</u> 3:00-4:30 p.m. Room 1B at 331 E. 70th

Enhance your knowledge of the internet as an everyday resource through email skills, file management, online safety and other topics to enrich your life. *Basic computer skills required. Laptops provided.* Instructor: Jake Newman

Learn about the Cloud
(4 Weeks, 4/18-5/9)

<u>Thursdays</u>, 10:30-12:00 p.m., Room 1B at 331 E. 70th

Have you heard of "The Cloud" before but are not exactly sure what it is? Are you familiar with the concept but unsure how to utilize it? This class will teach you both the formal foundations needed to understand what "The Cloud" is, and all the practical ways you can use it to your advantage. *Basic computer skills required. Laptops provided.* Instructor: Johnny Inoue

Useful NYC Apps
(4 Weeks, 5/16-6/6)

<u>Thursdays</u>, 10:30-12:00 p.m., Room 1B at 331 E. 70th

When's the next bus? What's the nearest subway stop? How do I get discounts on tickets for shows, food, events? Find out all this and more in our new class where we will cover useful apps and websites for living in NYC. *Basic computer skills required. Laptops provided, or bring your own device.* Instructor: Johnny Inoue

Registration Information

Registration for classes begins at **9am on Wednesday, April 3rd** and is by **phone or email only at 212-218-0477 or teched@lenoxhill.org.**

There are **limited spots available** in the registration-required classes. <u>If you cannot attend the first day of class or are absent from class without prior notice, your spot may be given to someone on the waitlist.</u>

Repeating Workshops

Workshops held on different dates cover the same material. Choose and <u>register</u> for one of the available dates listed:

All About AI (Artificial Intelligence)
<u>Room 1B at 331 E. 70th</u>

Enter the world of AI: discuss recent headlines and receive hands-on experience with everyday AI. *No computer skills required. Laptops provided*. Instructor: Meryl Lewis

<u>3 Sessions:</u>
1. Monday, April 15th, 2:30-4:00 p.m.
2. Monday, April 29th, 2:30pm-4:00 p.m.
3. Monday, May 6th, 2:30pm-4:00 p.m.

Tap into OMNY
<u>Room 1B at 331 E. 70th</u>

Come learn about New York City's new contactless fare payment system, OMNY. We will answer common questions such as how to set up an OMNY account and how to access Reduced-Fare. *No computer skills required. No devices required.* Instructor: Jake Newman

<u>2 Sessions:</u>
1. Friday, May 10th, 1:30-2:15 p.m.
2. Friday, May 31st, 1:30-2:15 p.m.
